

Dear Patient,

In response to the Covid-19 pandemic we continue to make the safety of our patients and staff the top priority. As we reopen we have modified our routine so as to be in compliance with regulatory agencies.

We continue to offer telemedicine visits and encourage this type of appointment for medical issues such as rashes, acne, psoriasis and other non surgical dermatologic issues. Our staff is happy to schedule this by phone with the provider of your choice.

If you have an appointment in our office please comply with the following:

-Please go to our website to print the necessary forms and update them before your appointment. Bring these forms and a **copy** of your insurance card and drivers license to your appointment. You can email these in advance if you prefer to info@brownsboroderm.com.

-When you arrive at the office, please **remain in your car**.

-You **must** wear a face covering.

-Do not bring anyone with you unless absolutely necessary. If you require assistance or are a minor, only one adult is allowed to accompany you.

-One of our office staff will call you at the number you provide to invite you inside and we will place you directly into an exam room. Your temperature will be taken and you will be asked a few screening questions.

We will do everything necessary to keep you safe during your visit and look forward to seeing you.
